

# Water

## Pearl Tower Dispenser

*Specification Guide*

The **Pearl Tower** was designed for hygiene-sensitive areas, offices and sophisticated, upscale sales outlets. It offers premium features such as: touchpad control panel, multilingual LCD display, as well as manual tapping and portion control. Thanks to the nano coated technology, no-contact dispensing nozzle and UV lamp option, Pearl Tower delivers high quality drinking water.

The unit provides still water, medium carbonated- and carbonated water in a hygienic and excellent tasting water quality. **Pearl Tower** is connected to our special range of water cooling technology units like Pearl Mini & Pearl Max 4s.

## Features

### **Different Types of Water**

Three possible water options: chilled carbonated, medium carbonated and still table water

### **Easy to control**

Easy control through a text display and 3 push-buttons. Electronic multilingual display with thirteen languages.

### **Low noise**

Low-noise design, can be located close to offices.

### **Focus on hygiene**

Design engineering focused on the delivery of hygienic water quality, e.g. nano-coated dispensing nozzle

### **Clean usability**

Easily removable drip tray with water level Indicator.

### **Flexible use**

Portion controlled dispense possible.

### **Filtering**

Water filters can be installed inside.

### **High Quality**

Made of high quality stainless steel material.

## Technical Specifications
