

Titan_S

FEATURES

Merchandising

Large and interchangeable LED illuminated graphic for maximum impact. LED lit flavor cards for brand visibility.

Excellent performance

Optimized ice bank and product delivery system ensuring in-spec drink dispense in D condition.

Life cost savings

Optimum air flow control, increased insulation, efficient heat exchange to energy efficiency and prolonged component life time.

Ease of service

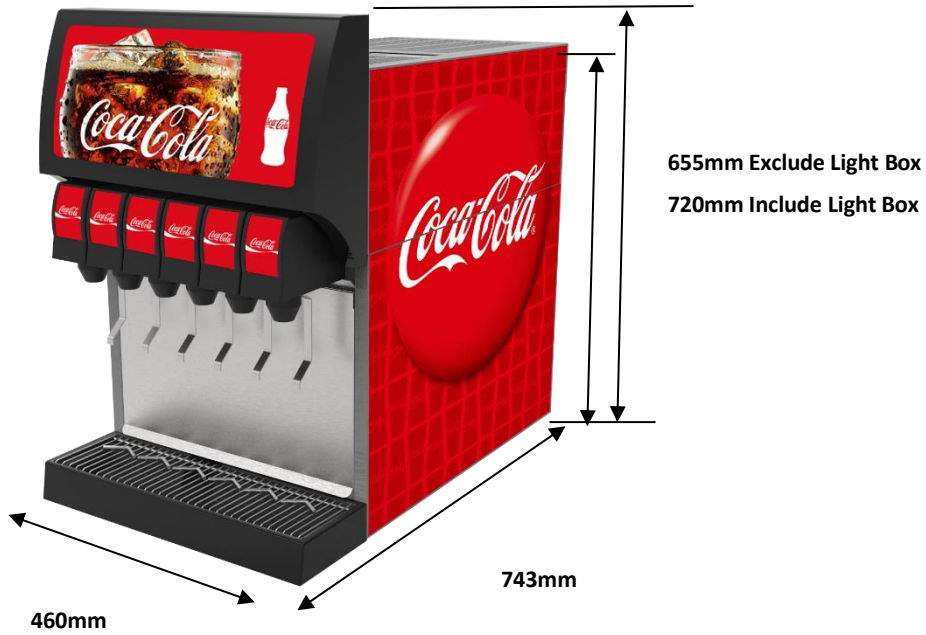

Independent refrigeration deck for easy service and maintenance. Structure design allows quick access to key components

Beverage flexibility

Quick hand operated changeover manifold without need for tools and plumbing.

Reliability & Sustainability

R290 green refrigerant and global agency (*CE- need application, ETL Sanitation, GB)
